Re: Process Number \_\_\_\_\_ or Permit No. \_\_\_\_\_

To: Zoning Permitting Division

I understand that I (**Neighbor's Name**) \_\_\_\_\_ as the owner, cannot arbitrarily decide to have the finished side of the fence facing the property known as (**Applicant's Address**) \_\_\_\_\_ and that I am only allowed approval to waive the finished side if my property meets one of the following categories. **(Please check one that applies):**

- ☐ Chain link/picket fence **and** is buffered by a hedge and/or bushes preventing access to placing boards/finished side facing toward.
- ☐ Wood fence or Dura fence prevents access to place boards facing outward.
- ☐ CBS wall or precast fence prevents access to place boards facing outward.

Therefore, I am approving that the wood fence or Dura fence that is being erected on the property known as (**Applicant's Address**) \_\_\_\_\_ will not have the finished side facing outward.

Sincerely,

**Neighbor's Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Neighbor's Print Name:** \_\_\_\_\_
